

## Genealogies Collection Inventory

The Genealogies Collection is a composite collection containing genealogies submitted to the Local History and Genealogy Department for the use of researchers. Genealogies presented in a format and size that lends itself to cataloging will be so handled and shelved in the Family Histories section of the department. These titles may be accessed with the on-line catalog. Genealogies that cannot be easily cataloged will be included in this collection. Folders will be filed alphabetically by the primary surname of the genealogy. When requesting a folder, please use the name in all CAPS. The surnames listed for each folder do not necessarily include every surname found in the work.

ADAMS – “Adams Family History” by Durand D. Donaldson (UT class paper)  
Surnames include: Adams; Donaldson; Shaddock
