

Women of the Old West End Collection Scope and Content Notes

This archive was received from the Women of the Old West End (WOWE). WOWE began as an informal meeting of women residing in the Old West End to address concerns of the neighborhood. The group met for a period of time as a club without a name. The name, Women of the Old West End, was adopted by May 1970. WOWE has been, perhaps, best known for the annual Spring Festival the first weekend of June started in 1972 as an "open house" of five homes. In the late 1980s, the group also began sponsoring Christmas tours of several homes called "Tours de Noel".

Most of WOWE's archive was received in 3 ring binders along with many loose items. The scrapbooks contained many newspaper clippings, some photographs, programs for the Spring Festival and Tours de Noel, and miscellaneous items documenting WOWE's history. Items removed from the scrapbooks have been kept in the same order as in the binders. Photographs, however, have been separated in order to house them in photographic envelopes; the envelopes indicate the scrapbook year. One photograph album detailing the restoration of 2351 Glenwood was photocopied and the photographs removed from the album.

Several publications from the Old West End are included in this collection. A detailed list of issues is included with this inventory. In addition, a database of houses in the Spring Festival and the Tours de Noel is also part of this inventory. The database is alphabetical by street name and then by house number. Programs have been left in the scrapbook for that year but duplicate copies of the programs were placed in separate folders of programs. These folders do not contain a complete run of years.
