

Carol Baur Morrison Genealogical Research Collection Biographical & Contents Notes

The Carol Baur Morrison Genealogical Research Collection was donated to the Local History & Genealogy Department in 2011 after Mrs. Morrison's death in October, 2010. She did much research on her family and compiled numerous binders.

The materials have been removed from the binders but kept in the same order as they were in. The folders are arranged alphabetically by the first surname on the binder label. Most of the binders were large and necessitated the use of two or three folders to hold the contents of one binder. Photographs were placed in envelopes and kept in the same location as they had been. Researchers are asked to keep the contents of each folder in the same order.

Carol Baur Morrison Genealogical Research Collection Inventory

Box 1
